

ENVIRONMENTAL SPECIALIST

To support operational growth and its Zero Incident culture, Forbes Bros Ltd. (FBL) is looking for Project Environmental Specialist(s) to join their HS&E team!

Reporting to the Health, Safety & Environment (HSE) Director, and working daily with Operations and Project Management - the successful candidate will be responsible for ensuring that project operational activities, undertaken or proposed by FBL, are aligned with project construction environmental management/protection plans, regulations and all other relevant environmental documents and commitments.

The day-to-day responsibilities of this role include, but are not limited to:

- Developing and implementing specialized environmental plans for each project segment/area, to ensure that work is completed in compliance with all relevant client requirements as well as provincial and/or federal regulations
- Evaluate compliance with applicable customer standards and commitments:
 - o Construction Environmental Management Plans
 - o Cultural and Heritage Resources Protection Plans
 - o Environmental Alignment Sheets & Work Instruction Packages
 - o Wildlife Resource and Habitat Protection / Mitigation Plans
 - o Soil, Erosion and Sediment Control Plans
 - o Vegetation, Weed & Pest Management Plans
- Monitoring and proactive reporting of any potential environmental issues to the project manager and recommending the implementation of appropriate corrective actions
- Recommending mitigation measures for implementation and ensuring work is completed in compliance with client requirements as well as provincial and/or federal regulations
- Training of employees and contractors on environmental awareness and aspect controls
- Working closely with customer environmental teams, to ensure requirements are achieved

Requirements:

As the successful candidate, you have:

- Ability to multi-task in a fast paced work environment
- Willingness to work in remote project locations, embedded with operational work groups

- Demonstrated skills in written and verbal communication, coordinating resources as well as the ability to analyze data and solve problems
- Excellent analytic skills and the ability to organize and express ideas clearly
- Strong knowledge of provincial and federal regulations, codes, permits and approvals; as well as their technical application
- Ability to establish and maintain effective working relationships with FBL personnel, clientele and outside representatives of applicable regulatory agencies.

You possess:

- University diploma or degree in the Environmental Sciences or equivalent;
- Graduation from an accredited college or university in environmental science, physical or biological science, or a closely related field;
- Certification in environmental specialty area preferred; or any equivalent combination of training and experience.
- Professional designation (EP, P.Biol., P.Ag., etc.) in place or qualify for application for these, considered to be an asset
- Knowledge/experience with Management Systems and audit tools including: ISO 14001, ISO 26000, Sustainable Development and CSR reporting.
- Experience working with and providing training to First Nations people (BEAHR Training, etc.)
- 2 or more years of experience within the Construction Industry, preferably Power Transmission segment
- 5-7 years' experience within the environmental sector (regulatory, consulting, non-government)

Additional Details:

This position is field based and requires candidates to:

- Have and maintain a valid driver's license and acceptable driver's abstract.
- Successfully complete pre-employment drug and alcohol testing.
- Complete background screening and criminal record check.

Forbes Bros Ltd. offers competitive compensation, a comprehensive benefit package, company vehicle and a rewarding employee pension plan!
