Low Carbon Offshore Oil and Gas: International Trends & Canadian Investments

WORKSHOP
May 14, 2021

AGENDA

Hosted by **Ashley Noseworthy** | Chair of NEIA's Board of Directors | *CEO Edgewise Environmental*

10h00 Introduction and Welcome
Hon. Andrew Parsons | Minister | *Department of Industry, Energy, and Technology*

10h10 Speaker Introduction
Paul Barnes | Director – Atlantic Canada | *Canadian Association of Petroleum Producers*

10h15 **The Pursuit of Net Zero Emissions and IPIECA's 2021-24 Strategy**
Jim Herbertson
Climate and Energy Technical Director | *IPIECA*

10h45 Speaker Introduction
Susan Vatcher | Industrial Technology Advisor | *NRC-IRAP*

10h50 **Emissions Reduction Fund (Offshore RD&D) Program and PRNL
Portfolio Overview**
Metzi Prince
Delivery Manager, Program Manager (Emissions Reduction Fund Offshore RD&D)
Petroleum Research Newfoundland and Labrador (PRNL)

Featuring:

- *Investigation of Offshore Electrification*
Chad Butler | VP, Business Development | Growler Energy

- *Novel Battery Hybrid Retrofit of a Multi-Purpose Platform Supply Vessel through the Integration of Spinning Reserve and All-Electric Transit Capabilities on a SMART Ship AI Platform*
Dan Vyselaar | Director of Technology & Development | Atlantic Towing Limited
- *Separation First Technology – Development and Demonstration of Porous Materials for the Reduction of Carbon Dioxide in Offshore Oil Production*
Dr. Michael Katz | Associate Professor, Department of Chemistry, Faculty of Science
Memorial University of Newfoundland

11h30 **CRIN Programming and Opportunities**

Joy Romero

President | *Clean Resources Innovation Network*

11h50 **Questions & Answers**

12h10 **Concluding Remarks**

Charlene Johnson | Chief Executive Officer | *Noia*

By registering for this event, you will gain access to 3 presentations covering research that has recently been completed around R&D strengths, the support ecosystem, and emerging supply chain trends as each relates to cleantech and the offshore oil and gas industry.
