

Newfoundland and Labrador
Environmental Industry Association

Request for Expression of Interest

IDENTIFYING COLLECTIVE OPPORTUNITIES

February 17, 2017

1. Introduction

The Newfoundland and Labrador Environmental Industry Association (NEIA) is exploring the possibility of engaging a consultant to work with the association to identify segments of the province's environmental sector that show significant potential for growth.

The work would identify segments based on the level and intensity of different environmental sector activities within the province. With respect to growth potential, a primary consideration will be international business development and the export opportunities associated with each segment.

2. Submission Requirements

General

The request for EOIs is exploratory in nature, and thus does not require a detailed response. EOIs should not exceed 1 page in length.

Relevant Experience

This section must include a listing of relevant experience of the consultant with respect to sector development and international business and exporting.

Cost

This section must include a cost estimate for the scope of work.

Timeline

This section must include an estimation of time required to complete the scope of work.

3. Submission Details

The deadline for the submission of EOIs is 17h00 on February 23, 2017. EOIs can be submitted directly to Kieran Hanley, Executive Director of NEIA, at kieran@neia.org. Only the proponents of EOIs of interest to NEIA will be contacted.

4. Enquiries

Contact Kieran Hanley, Executive Director of NEIA, at kieran@neia.org with any questions you have on the Request for EOI.

5. Disclaimer

This Request for EOIs is not an offer by NEIA, but an invitation to receive responses from interested parties on a possible future piece of work. No contractual obligation whatsoever shall arise from the EOI process unless and until a formal contract is signed and executed between NEIA and the interested party. The issue of this EOI does not imply that NEIA is bound to select a submission. NEIA reserves the right not to proceed with the project outlined.
