

SmartEnergy EVENT

Presented by  Emera

Connect with smart energy solution providers, cleantech innovators and renewable energy ideas.

Smart Energy'18 is Atlantic Canada's #1 conference in the smart, clean & renewable sectors. You will have the chance to exchange ideas with innovative companies, utilities, renewable energy success stories, commercial consumers, academics, students and technology innovators.

Smart Energy returns to Halifax on April 24-25th, 2018 at Pier 21. Check out our website for the most up to date agenda and speakers- www.smartenergyevent.ca

You'll hear the latest on Smart Energy, efficiency, electric transit solutions, energy storage, plus a chance to hear on the latest innovations in wind, solar, tidal and other cleantech innovations. Some of the confirmed speakers are from organizations like: Emera, NB Power, Stantec, Siemens, CUTRIC, Volvo, NEST Labs, Greentown Labs (MA), IBM, UNB, Northland Power, Energy Storage Canada and many more.

Register by March 1, 2018 to secure our Early Bird rate of \$500 +HST for the two day event. Use code SEEARLY18
